

# Soft & Semi-Rigid Material Conversions

- ⊗ Gaskets
- ⊗ Washers
- ⊗ Packing
- ⊗ Blanks, Spacers
- ⊗ Sealing Strips
- ⊗ Insulators (Thermal, Electrical & Acoustic)
- ⊗ Electronically or Thermally Conductive Components
- ⊗ Transit Protection Shims
- ⊗ Discs
- ⊗ Templates & Prototypes
- ⊗ Print Anvils

## Solutions Engineered To Suit Your Budget

- ⊗ ISO9001:2008 Certification
- ⊗ Unique & identifiable part numbers allow tracking
- ⊗ In house draughtsmen enable Intricacy of design
- ⊗ Extensive, existing drawing & template database
- ⊗ No barriers to large-scale components
- ⊗ Two-axis Cad-Cam with Vacuum Bed
- ⊗ Rapid turnaround on low unit manufacture

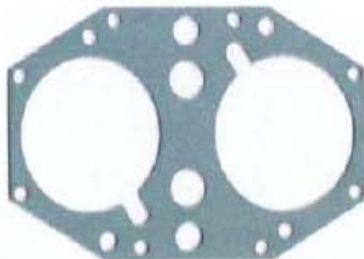

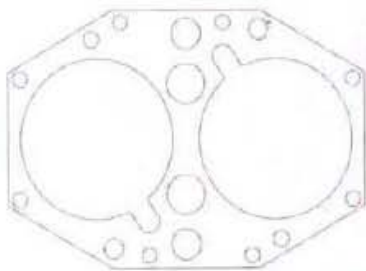

- ⊗ Affordable set-up costs
- ⊗ Accuracy of manufacture
- ⊗ Versatile range of ex-stock materials

## Client Led

Over 90% of our manufacture is specific to individual customer requirements. We appreciate the applications for soft to semi-rigid two-dimensional components are limitless & our approach to solutions is appropriately flexible.

Whilst our catalogue is relatively small, the range of possibilities is endless. Tell us what you wish produced & we will endeavour to assist.

Should you need our assistance in selecting suitable materials for your applications; we can draw on our many years of experience in the industry. Additionally we have partners in multiple fields of raw materials supply who contribute their individual specialist knowledge.

Ashton Seals, Cortonwood Business Park, Cortonwood Drive, Brampton, Barnsley, S73 0UF
